## COMPANY OVERVIEW

---

## ABOUT US

Uniquely Recycled & Asset Disposal is an e-Waste recycling company situated in Johannesburg. We have been recycling e-Waste since 2019 and our services are offered to the public, small/medium enterprises, large corporations and homes. We also provide services to government, educational and medical institutions.

Uniquely Recycled & Asset Disposal is 100% Black Women-Owned with a level 1 B-BBEE and 135% procurement recognition.

# MISSION AND VISION

---

## Mission

Our mission is to provide standard recycled electronic materials that will assist the relevant industries in saving cost and energy and also to contribute our quota in helping save our world from unnecessary degradation caused by buried electronic material waste.

At our client's best interest will always come first, and everything we do will be guided by our values and professional ethics.

We will ensure that we hold ourselves accountable to the highest standards by meeting our client's needs precisely and completely.

## Vision

Our vision is to establish a standard and world class e – Waste recycle plant whose products and brand will not only be accepted in Gauteng but also in other cities in Africa.

We want to build an e – Waste recycling plant that can favorably compete with other leading brands in the recycling industry.

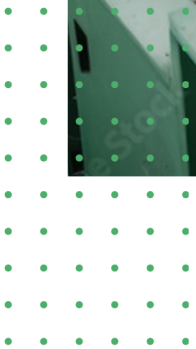

We will cultivate a working environment that provides a human, sustainable approach to earning a living, and living in our world, for all our partners and clients.

# COMPANY VALUES

We will cultivate a working environment that provides a human, sustainable approach to earning a living, and living in our world, for all our partners and clients. We want to keep as much electronic waste from ending up in local landfills as we can.

Our client's best interest will always come first, and everything we do will be guided by our values and professional ethics. We will ensure that we hold ourselves accountable to the highest standards by meeting our client's needs precisely and completely.

## WHAT WE DO

Convenient Pick Up we collect goods for dismantling, recycling and destruction nationwide.

Onsite/Offsite Reporting – We can facilitate e-waste audits on items collected, on request.

We specialize in professional decommissioning of server rooms.

We track movement and handling of data throughout the decommissioning process, reducing the risk of data breaches.

We protect your confidential company information.

Hard Drive Destruction – When disposing of any old computer, there is really only one way to securely erase the information on the hard drive by destroying the magnetic disk also known as a platter inside.

We can destroy your hard drive by drilling through the media, and disassembling its parts for ultimate security. If you're donating, selling, or recycling a computer, you'll want to make absolutely sure you're not giving away the personal and private information on your hard drive.

**Not limited to other services such as:**

- Collection of Lithium Batteries
- Collection of X-Rays
- Collection of Motherboards

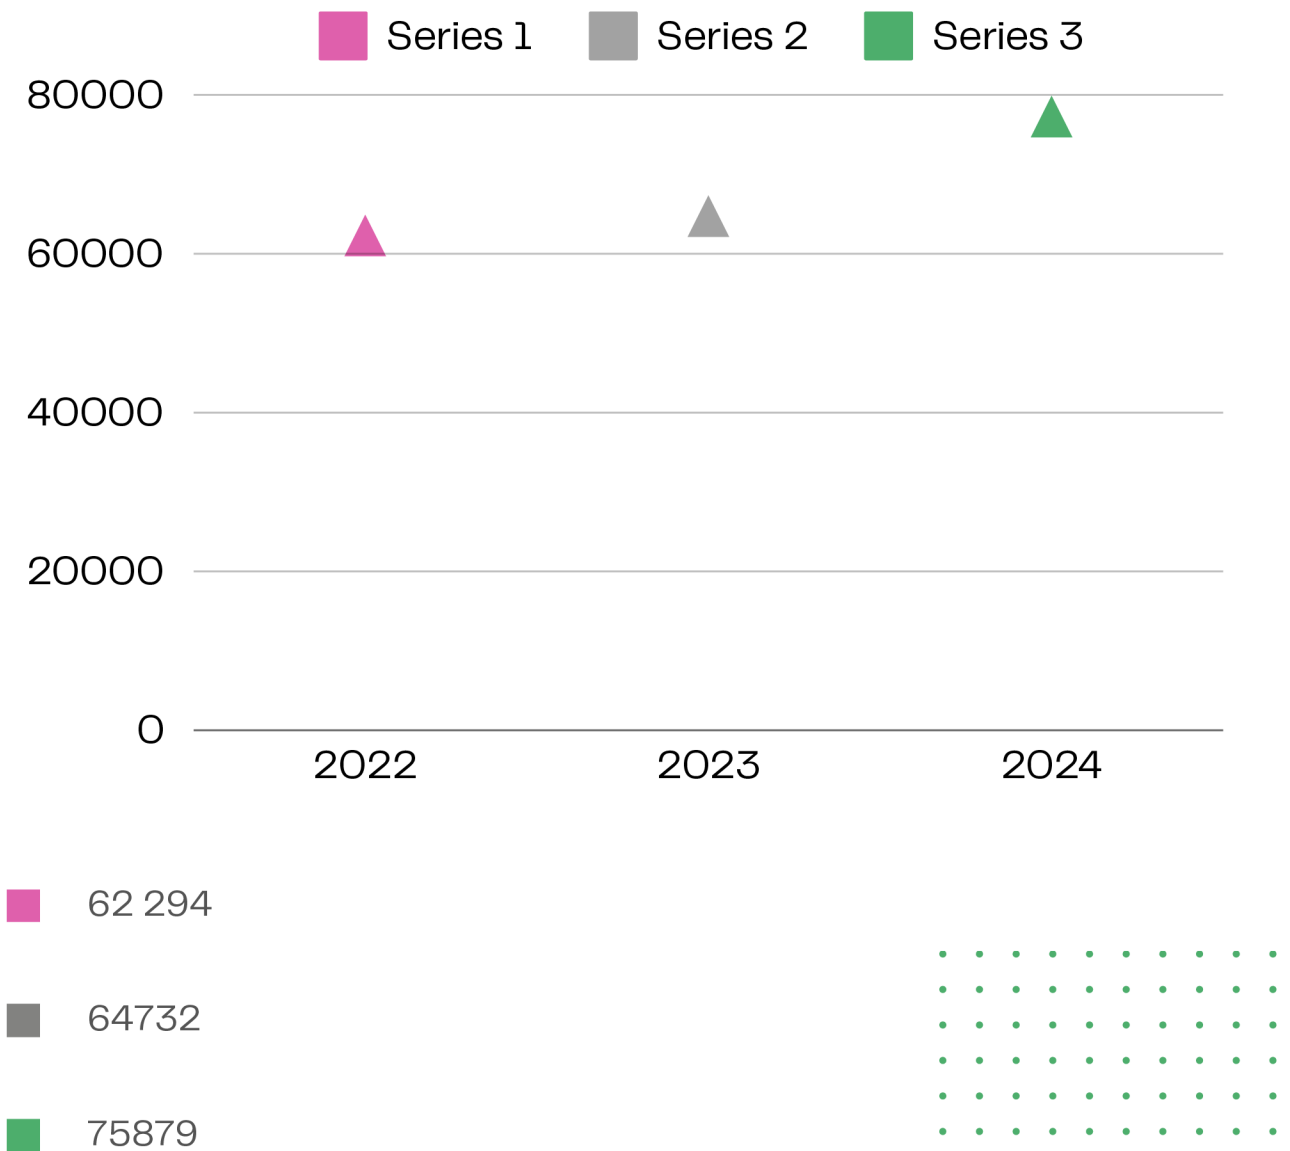

# COMPANY CHART

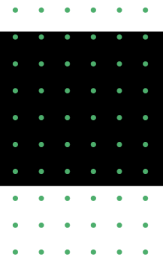

## LANDFILL SHOULD BE THE LAST RESORT

A zero landfill future requires collaboration, innovation, and courage. Together, we can make it a reality.

The road to zero landfill is paved with creativity, commitment, and collective action. Join the journey in assisting URAD-SA to ZERO landfill.

The only thing we should be sending to landfills is zero. Everything else deserves a second chance

## E-WASA

The **EPR Waste Association of South Africa (eWASA)** is a **registered Producer Responsibility Organisation (PRO)** with the Department of Forestry, Fisheries and the Environment (DFFE) for the Electrical and Electronic Equipment (EEE)

## GWIS

This Waste Information Centre provides the public, business, industry and government with access to information on the management of waste in South Africa.

## SAPS

The Second-Hand Goods Act 2009 regulates the business of dealers in second-hand goods and pawn brokers. Two important policy considerations are at stake: to prevent the public from being ripped off, but – more importantly – to combat trade in stolen goods.
